EXPERIENCE

03/2024 - Current
Laravel Developer
Entrix Solutions | Technopark, Trivandrum

- Designed, developed, and maintained scalable web applications using **PHP(LaravelFramework)**.
- Mentored and guided junior developers, conducted code reviews, and ensured adherence to coding standards and best practices.
- Managed project workflows, task allocation, and technical problem-solving within the development team.
- Optimized database performance using MySQL queries, indexing, and caching techniques.
- Integrated third-party APIs, payment gateways, and authentication systems.

11/2020 - 02/2024
Laravel Developer
Netventure Digital Solutions | Ernakulam

- Debugged complex software issues, leading to a more stable product release.
- Adapted quickly to new technologies and programming languages, enhancing overall team productivity.
- Worked closely with clients to gather requirements and translate them into technical specifications for implementation.

11/2019 - 11/2020
Laravel Developer
Cloudme Soft Technologies | Ernakulam

- Built and modified backend features under the guidance of senior developers.
- Worked with MySQL databases, writing queries and optimizing basic performance issues.
- Integrated APIs and supported frontend developers with backend data services.
- Fixed bugs, troubleshot issues, and performed testing to ensure application stability.

09/2018 - 10/2019
PHP Developer
Shrishti Info Solutions | Palarivattom

- Performed troubleshooting of technical issues within production environment.
- Developed back-end components to connect applications with web services.
- Contributed to UI improvements and minor frontend tasks using Blade, HTML, CSS, and JavaScript.

PROJECTS

- **AKPCTA Website** – Developed a CMS-based platform to manage events, communications, and organizational activities with admin dashboard and role-based access control.
- **AAXIS – Project Management System** – Built an office workflow and task management system with user roles, tracking, and reporting features.
- **AFAAR – Food Ordering App** – Developed Laravel backend and RESTful APIs for a multi-language food ordering system with order management and payment integration.
- **Meryal Theme Park** – Created a theme park management system with integrated online ticket booking and admin control panel.
- **HealthStack Clinic** – Developed a multi-database healthcare management system for patient records and appointment scheduling.
- **Custom CRM Product (Own Development)** – Designed and developed a comprehensive CRM system to manage employees, HR operations, project tracking, and overall company administration. Implemented role-based access control, performance monitoring, payroll/HR modules, reporting dashboards, and scalable architecture using Laravel.
- **Other Projects** – Contributed to **Kerala Police Academy Website**, **Mpower** App (API development), **VSM Hospital Website**, and **KVR Maruthi** Booking System, **Wallstoneberg**, **Businessetup**,**Chess Management**
